EVALUATION EXPECTATIONS
FOR PARTICIPATING TEACHERS

The National Science Foundation, funders for the MTU High School Enterprise program, requires an evaluation of the effort to determine the impact of activities on participating teachers and their students. Science and Mathematics Program Improvement (SAMPI) at Western Michigan University will be serving as external evaluators for the project. The evaluation team will include Betty LaPointe and Mark Jenness. A variety of data collection methods will be used, including teacher and student surveys, interviews, lesson observations, school site visits, and review of student projects.

Below is a list of expectations for participating teachers and students:

TEACHERS

• Complete pre-, mid-point, and end-of-program surveys about technology skills and use
• Participate in pre-program and periodic telephone or email interviews about project activities
• Help arrange and facilitate at least one school site visits
• Complete workshop questionnaires
• Provide samples of student work

STUDENTS

• Complete pre/post knowledge/skills/attitude survey
• Complete student conference questionnaire

FOR MORE INFORMATION ABOUT THE EVALUATION OF THE PROJECT, CONTACT: Dr. Mark Jenness, SAMPI, Western Michigan University, 1903 W. Michigan, 3225 Wood Hall, Mail Stop 5442, Kalamazoo, MI  49008    Phone:  269-387-3791.  Email:  jenness@mich.edu.
